Figures and tables

Figure 1: Prevalence of perceived racist harassment in 5 years before the survey, by country (%)	15
Figure 2: Prevalence of experiencing perceived racist harassment in 12 months before the survey, by sex, age, religion, education, length of stay in the survey country, and immigrant generation, by country (%)	17
Figure 3: Perpetrators by ethnic background – most recent incident of perceived racist harassment in 5 years before the survey (%)	18
Figure 4: Rate of reporting perceived racist harassment to authorities or services (including police) – most recent incident in 5 years before the survey, by sex and education (%)	19
Figure 5: Reasons for not reporting perceived racist harassment to authorities or services – most recent incident in 5 years before the survey (%)	20
Figure 6: Prevalence of perceived racist violence in 5 years before the survey, by country (%)	22
Figure 7: Perpetrators by ethnic background – most recent incident of physical violence in 5 years before the survey, by sex (%)	24
Figure 8: Rate of reporting perceived racist violence to authorities or services – most recent incident in 5 years before the survey, by sex and education (%)	25
Figure 9: Reasons for not reporting perceived racist violence to authorities or services (including police) – most recent incident in 5 years before the survey (%)	26
Figure 10: Most often mentioned reasons for not reporting assault by a police officer – most recent incident in 5 years before the survey (%)	27

Figure 11: Awareness of a family member or a friend being insulted or called names because of their ethnic or immigrant background in 12 months before the survey, by country (%)	28
Figure 12: Awareness of a family member or a friend being physically attacked because of their ethnic or immigrant background in 12 months before the survey, by country (%)	29
Figure 13: Prevalence of stops by police in 12 months and 5 years before the survey, by country (%)	31
Figure 14: Most recent police stop perceived to be due to racial profiling among those stopped in 12 months before the survey, by country (%)	33
Figure 15: Most recent police stop perceived to be due to racial profiling among those stopped in 5 years before the survey, by age group (%)	34
Figure 16: Levels of trust in the police, by country (average values on a scale ranging from 0 to 10)	35
Figure 17: Levels of trust in the police and experiences with police stops, by country (average values on a scale ranging from 0 to 10)	35
Figure 18: Most commonly perceived grounds for discrimination experienced in four areas of life in 5 years before the survey (%)	38
Figure 19: Most relevant grounds for discrimination experienced in four areas of daily life in 5 years before the survey, by country (%)	39
Figure 20: Discrimination perceived to be due to skin colour experienced in four areas of daily life in 5 years before the survey, by country and sex (%)	40
Figure 21: Overall prevalence of discrimination based on 'ethnic or immigrant background' in 12 months and 5 years before the survey, by country (%)	41
Figure 22: Prevalence of perceived discrimination in different areas of life in 12 months and 5 years before the survey (%)	42
Figure 23: Reporting perceived discrimination to authorities or services – most recent incident in 5 years before the survey, by country (%)	43
Figure 24: Highest completed level of education among respondents of African descent aged 16 to 64 years compared with the general population, by country and sex (%)	47
Figure 25: Racist harassment experienced by respondents' child or children at school in the 12 months before the survey (%)	48
Figure 26: Self-declared main activity status among respondents of African descent aged 20 to 64 years, by country (%)	50
Figure 27: Paid work rate among respondents of African descent aged 20 to 64 years (including self-employment and occasional work or work in the past 4 weeks) compared with the general population employment rate, by country (%)	51
Figure 28: Respondents of African descent aged 16 to 24 years who are neither in work nor in education or training, by country (%)	52
Figure 29: Types of occupation among respondents of African descent who indicated that they are employed, by country (%)	53
Figure 30: Prevalence of perceived racial discrimination in the area of work in 5 years before the survey, by country and sex (%)	55
Figure 31: Respondents' experiences with specific discriminatory situations at work in 5 years before the survey (%)	56
Figure 32: Respondents of African descent who live in accommodation they own, compared with the general population, by country (%)	58
Figure 33: Prevalence of perceived racial discrimination in access to housing in 5 years before the survey, by country (%)	59
Figure 34: Respondents' experiences with specific discriminatory practices when looking for housing in 5 years before the survey (%)	60
Figure 35: Respondents of African descent who live in overcrowded housing compared with the general population, by country (%)	61
Figure 36: Respondents of African descent who live in severely deprived housing compared with the general population, by country (%)	62
Figure 37: At-risk-of-poverty rate after social transfers among respondents of African descent, by country and citizenship and compared with the general population (%)	63
Figure 38: Making ends meet 'with great difficulty' and regular remittances – comparing respondents of African descent with the general population, by country (%)	64
Table 1: Samples per country – overview table	68
Table 2: Paid work rate among respondents of African descent aged 20 to 64 years (including self-employment and occasional work or work in the past 4 weeks) compared with the general population employment rate, by country, sex and education (%)	69
Table 3: Most important countries of origin of first-generation immigrants of African descent by EU Member State	70
